

Corporate Fact Sheet

Company Overview

HealthTrackRx is the nation's premier infectious disease laboratory with over 4 million samples processed, delivering accurate clinical results at one of the fastest speeds in the industry. We are a CAP-accredited, CLIA-licensed, Six-Sigma laboratory. Since 2010, we have provided diagnostic laboratory services to clinicians and served as a trusted partner to healthcare professionals nationwide.

Our technological advances in PCR testing have helped reshape patient care by mobilizing faster clinical decisions, cultivating insight on antibiotic stewardship and providing rapid, actionable results that enable providers to make informed patient treatment decisions.

- Popular amusement parks

NATIONWIDE
COVERAGE

Over 10,000 clinicians from 5k+ accounts have trusted HealthTrackRx with molecular diagnostic infectious disease testing.

HealthTrackRx is Your Complete Solution for Molecular Diagnostic Testing

Turnaround Time

*Unparalleled report
delivery time.*

All samples are processed and results reported within 24 hours from sample receipt. Our turnaround time is one of the fastest in the industry.

Service

*Our technology
makes it easy.*

We provide clinicians with a specimen collection including coordinating a local courier, FedEx, or UPS pickup schedule. Our system also integrates with EMR systems and we deliver results via our Client Web Portal.

Accuracy

*Best in class
PCR test.*

We deliver the most accurate diagnostics with >99% accuracy for both sensitivity and specificity on all sample collection types. Our Clinical team consists of medical doctors and PhDs you can consult with.

Identification

*Our tests are more
comprehensive.*

HealthTrackRx PCR testing identifies what culture can identify as well as what culture misses, particularly the pathogens that are hard to culture or even impossible to culture. Our reports provide antibiotic efficacy.
